

## DERUDDER – Africa Director

### Who are we?

We are a service company as well as organizer, commission agent and forwarding agent, for customs and maritime, air, road, river or rail transportation.

Since the beginning, we have been handling your international shipments of goods and since the 1980s; we are also managing your logistics.

Based in Le Havre, we operate throughout France thanks to the digitalization of our sphere of activity and now on more than a hundred points of the national territory.

Every day we strengthen our reputation for excellence thanks to our highly qualified teams and by our constant investment in IT tools.

Our clients are Key Accounts or attractive SMEs who come for our expertise, our reliability, our long-term vision and our ethics.

With a marked preference for the human element, helped by technology, we are meticulous and creative, adaptable and reactive... we are architects in the field of transport.
